## HOLY ANGEL UNIVERSITY

- **How did you come up with the design of the logo**

- The logo that we've come up with for our website "Starseed Pieces" embraces and gives off both elegant and celestial theme that aligns gorgeously with the business's focus on jewelry. The central star that we've put up on the logo represents the energy of the cosmos that gives off a sense of higher purpose. The star's light shines both beauty and brilliance, as well for the quality and craftsmanship of every jewel and accessory that is made. The orbit ring that is around the star enhances sense of movement of the logo, giving the idea of how the star and celestial body move in space that adds balance and harmony. The soft hues and golden color of it that is used in the design provides the aura of positivity, luxury, and warmth for everyone. The three circular shapes have given us a sense of unity and completeness, as a symbol for a personal and significant nature of the pieces. Lastly, this logo has visually communicated and will forever communicate with us and the future audience, giving the mission of the shop, which is providing jewelry accessories that carries aesthetic value as well for significance, making it more than a product, but a piece of the cosmos to be worn and forever be with you.
